REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Independent claims 1, 9, 18 and 21, and claims dependent therefrom, remain deemed allowable over a plurality of the prior art of record and over newly cited publications cited in the Information Disclosure Statement filed on 9-14-2001 in view of respective recitations of "...input device configured...volume of water to be dispensed from the outlet during a dispense cycle...".

Clack patent 5,876,610; Hsu patent 5,865,991 and Silverman patent 5,540,107 as well as newly cited publications WO 99 65382 and EP 947 231 A each teach water purifying and dispensing systems having input devices configured to input desired cumulative volumes of water to be dispensed cooperating with flow control devices designed to limit or prevent flow after such volumes have been dispensed. However, none of such prior art suggests inputting a desired volume of water to be dispensed during a dispense cycle.

Newly cited publication WO 99 65832 A teaches an input device to input dispense rate or flow rate of purified water being dispensed during a dispense cycle, however does not suggest to input a desired cumulative volume of water to be dispensed and is deemed not obvious to combine with the forementioned prior art, since the monitoring and control system of '832 is disparate from those of the previously recited prior art, and functions primarily to achieve the purpose of effecting accurate dispensing during cycles while the systems of the forementioned

Art Unit: 1723

prior art function primarily to serve as end-of life indicators for purifying systems to insure timely replacement of the purifying apparatus components.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joseph W. Drodge whose telephone number is (703) 308-0403. The examiner can normally be reached on Monday-Friday from approximately 8:30 AM - 4:45 PM.

The fax phone number for this Group is (703) 872-9310. When filing a FAX in Tech Center 1700, please indicate in the Header (upper right) "Official" for papers that are to be entered into the file, and "Unofficial" for draft documents and other communication with the PTO that are not for entry into the file of the application. This will expedite processing of your papers.

Any inquiry of a general nature or relating to the status of this application should be directed to the Group receptionist whose telephone number is (703) 308-0661.
